I got a few PMs asking me how I did a boost leak test on my 2004 A4 & decided to make a DIY for anyone else who was confused. I too was lost at first while seeing the a4mods & other DIYs on here that had a different configuration than my 04 had. The 04 has the PRV behind the engine, instead of on the TIP, which is what threw me off a bit when I was following the guides.

DIY: Boost leak test on a 2004 Audi A4 - Audizine

2004 Audi A4 1.8T. Re: (GTItracing88) ... For a stock turbo a bleed or combination bleed and ball&spring is best. A bleed constantly bleeds off the pressure and smooths out the boost onset and limits spiking. A combo mbc lets you do that and then use the b&s to hold the boost longer in the rpms. A b&s by itself just works to damm fast for a ...

Hello, The car symptoms are reduced power, and it idles rough. The 17705 Pressure drop between turbo and Throttle Valve (check D.V.) has been a constant error, while the misfires and lean code errors have come and gone. It feels, and sounds like a vacuum leak, but I can't find anything leaking and have replaced a ton of parts, hoses, checkvalves, etc. :banghead: I have tried everything the ...
