### 2 5 Liter Engine Vw

The 2.5 VW 5 cylinder engine was essentially the replacement for the older 2.0 liter normally aspirated base model engine. It has a 20 valve cylinder head, with variable valve timing. The 5 cylinder configuraton is known for better torque and smoother revving operation than a 4 cylinder. The engine ratio of bore to stroke is undersquare, meaning a smaller bore and a longer stroke (82.5mm x 92.8mm), which also means more torque than horsepower.
