The Buick V6, popularly referred to as the 3800 in its later incarnations, originally 198 cu in and initially marketed as Fireball at its introduction in 1962, was a large V6 engine used by General Motors. The block is made of cast iron and all use two-valve-per-cylinder iron heads, actuated by pushrods. The engine, originally designed and manufactured in the United States, was also produced in later versions in Australia. The 3800 was on the Ward's 10 Best Engines of the 20th century list, made
