Believing the Lie is one of Elizabeth George's longest books (my hardcover copy is 608 pages), and it's also one of the most intricate and complex. There are multiple plot strands that radiate from a central occurrence, in this case, the drowning of Ian Cresswell, before all converging near the book's end.

Believing the Lie. I am a big fan on Elizabeth George and have read all the Lynley mysteries. Unfortunately, the last three have lost George's verve and cleverness. Believing the Lie suffers from way too many skimpy sub-plots and needed a good editing to be up to her excellent standards.

Careless in Red was rubbish and Believing the Lie is no better. If you want a good detective story you would be better served by reading an Agatha Christie story. Short, to the point, a good plot, a true mystery and no pointless sex.

That they should believe a lie:or rather, the lie, namely the falsehood which the man of sin disseminates by his deceit of unrighteousness. Being destitute of the love of the truth, they are necessarily led to believe a lie - their minds are open to all manner of falsehood and delusion. 2 Thessalonians 2:11 Commentaries
