HOTEL ROOM MANAGEMENT SYSTEM - specifications OVERVIEW

With this software design document, you'll have an answer to any such quibble: when disagreements arise, you can refer to the specification which the client agreed to and signed-off on, pointing out that you have fulfilled it to the letter. Instead of angry arguments, you'll make amendments and clarifications to the document.

How to Write Software Design Documents: With Examples | Toptal

The Software Requirements Specification (SRS) will provide a detailed description of the requirements for the Hotel Management System (HMS). This SRS will allow for a complete understanding of what is to be expected of the HMS to be constructed.

Software Requirements Specification (SRS) Template

The Product Design Specification document is created during the Planning Phase of the project. Its intended audience is the project manager, project team, and development team. Some portions of this document such as the user interface (UI) may on occasion be shared with the client/user, and other stakeholder whose input/approval into the UI is needed.

Product Design Specification Template

The main users of the product would be kitchen management and staff. The management would approve the orders that would be sent out, provide vendor information, upload recipes, and set threshold levels. Many of these tasks, such as the information regarding vendors, recipes, and threshold levels would need to be set only once.
