A beginning reading program should:
Introduce consonants and vowels in a sequence that permits the children to read words. Choose consonants and vowels that can be combined to make words for the children to read. Teach a number of high-utility sound-letter relations first and add lower utility relations later.

Grade | Scholastic | Parents

From birth, babies and children are gathering skills they'll use in reading. The years between ages 3 and 5 are critical to reading growth, and some 5-year-olds are already in kindergarten. The best way to instill a love for and interest in reading is to simply read to your child. And yet, many parents don't.
