You can use the Inclined Plane - Simple Machine Gizmo™ to see how inclined planes can help to lift objects. On the CONTROLS pane, make sure the Angle is 30°, the Coeff. of friction is 0.00, and the

### Student Exploration Sheet: Growing Plants

Four elementary-level Gizmos introduce different simple machines: Pulleys, Levers, Ants on a Slant (Inclined Plane), and Wheel and Axle. In the Pulleys Gizmo, students can see how the effort of one person can be multiplied by adding more fixed and moveable pulleys to a system, allowing even a single person to lift a heavy object. They will also see why this happens, as each rope in the system adds to the total force acting on the object.
