Interface Control Document Template

This document is a template for creating an Interface Control Document for a given investment or project. The final document should be delivered in an electronically searchable format. The Interface Control Document should stand on its own with all elements explained and acronyms spelled out for reader/reviewers, including reviewers outside CMS who may not be familiar with CMS projects and investments.

Interface Control Document (ICD) Template

Interface Control Document (ICD) is a document that describes the interface(s) to a system or subsystem. It may describe the inputs and outputs of a single system or the interface between two systems or subsystems. It can be very detailed or pretty high level, but the point is to describe all inputs to and outputs from a system.
